MADKOUR ARCHITECTS

www.madkourarchitects.com

Profile

Madkour Architects was established in 1996. Since then, we have worked on a large number of projects and buildings. We have developed residential buildings, palaces, hospitals, offices buildings, and a very large number of banks. We provide full consultancy services of Architecture and Engineering. We carry out the work from concept development, all the way to project management. We are also partners with one of the leading construction companies in Lebanon called "La Constructa", with which we follow up on the execution of many of our projects.

Our office is equipped with the state of the art technology to meet all modern requirements for architectural and engineering needs. We use the latest computer systems, both hardware and software. We have the best capabilities to produce all kind of visuals and presentation material for all the design work we develop. This includes standard drawings, 3D Photo Realistic presentations, Models, large boards and more.

Our human power consists of six in-house and full time associates, all Architects and Engineers. We also have a large number of specialised consultants we work with depending on jobs, and specific consultancy needs.
